MeTTaCycle Explorer

What is it?

This is one block of events in a decentralized system.

In this block, addresses (nodes) interacted with each other:

- exchanged data
- invoked agents
- performed computations
- signed or verified results

What do the elements mean?

■ Node (rectangle) — an address (a participant)

→ Arrow between nodes — an interaction in this block

What can I learn?

- What each address did in this block
- How many interactions it had
- How much data or compute it handled
- How many agents were active in the block

Why do I care?

To understand who did what, who interacted with whom, and how much it cost (Phlo / Cost).

Got it

Beware of recovery key scams

Never enter a recovery key given to you by someone else, including
someone from F1R3SKY

I understand that I'll lose my assets if I use someone else's key.

I understand

Back

Let's recover your key

Enter your secret recovery key, which you created to back up your account.

Enter your recovery key

I understand that I'll create a new passkey and my current passkey will not longer work

I understand

Back

I don't have recovery key

Email recovery

Enter the email you used to create your account.
We'll send you a "reset code" so you can set a new password.

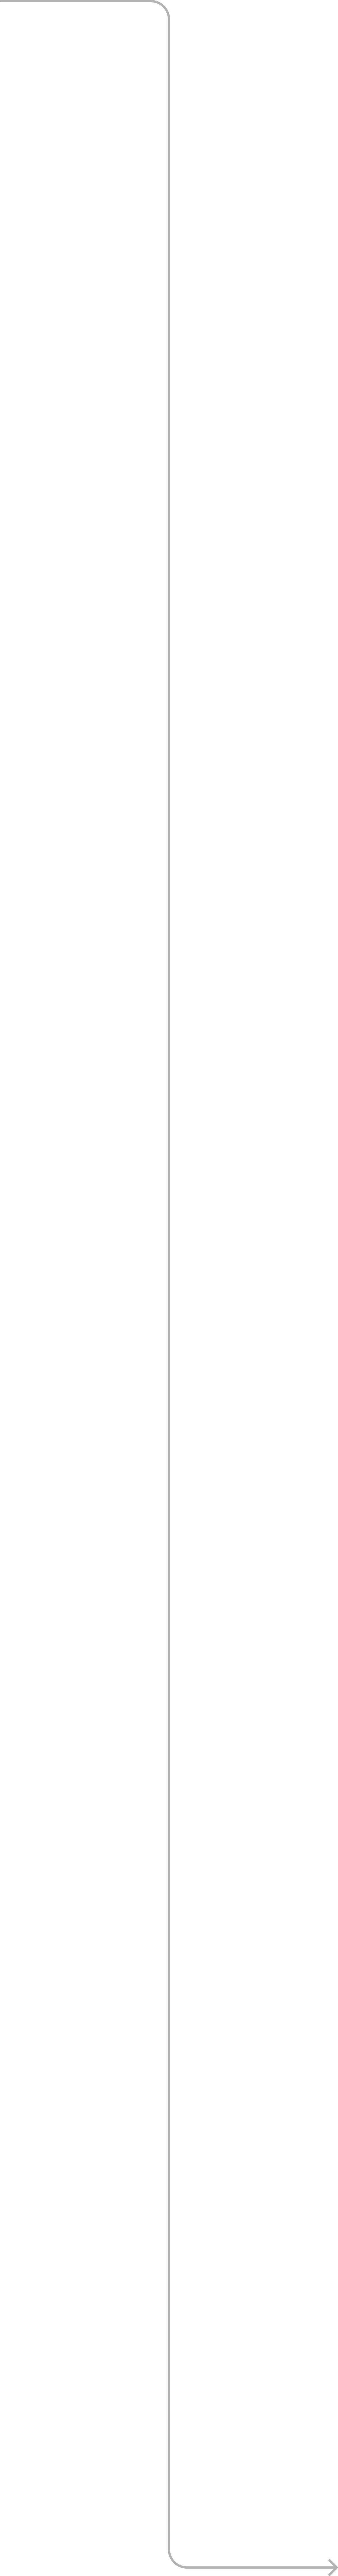

Email address

@ Enter your email address

Boost message

Let people know what you need help with
or why they should support you.

Message

Every beat I make carries a piece of my soul.
Your support fuels the rhythm, the passion, the dream.
Drop a token, and be part of the sound that moves us all.

Your message will be shown to people who can send you tokens.
